Hurricane Harvey – Community Development Block Grant, Disaster Recovery Funding

PUBLIC HEARING #1 - FACT SHEET

On February 9, 2018, the U.S. Department of Housing and Urban Development (HUD) allocated \$5,024,215,000 in Community Development Block Grant disaster recovery (CDBG-DR) funds to the State of Texas for necessary expenses for activities authorized under Title I of the Housing and Community Development of 1974 related to disaster relief, long-term recovery, restoration of infrastructure and housing, and economic revitalization in the “most impacted and distressed” areas affected by Hurricane Harvey.

On April 10, 2018, the Texas General Land Office (GLO) allocated funding to the Golden Crescent Regional Planning Commission region, encompassing Calhoun, DeWitt, Goliad, Gonzales, Jackson, Lavaca, and Victoria counties, for the following three programs:

I. Homeowner Assistance Program

Funding Available:
\$55,938,689

Program Administration:

The GLO will administer this state-run program with the assistance of state-approved builders and contractors.

Eligible Activities:

This program will provide funding for rehabilitation and reconstruction of owner-occupied, single-family homes damaged by Hurricane Harvey.

II. Local Buyout and Acquisition Program (LBAP)

Funding Available:
\$18,430,647

Program Administration:

Local units of government and entities with eminent domain authority will administer this program. GCRPC will develop a method of distribution to allocate funds to all eligible entities (cities, counties, entities with eminent domain authority), per GLO and HUD requirements.

Eligible Activities:

Funds may be utilized to -

- buyout or acquire eligible homes at a pre-storm or post-storm fair market value to move homeowner’s out of harm’s way to a lower-risk area;
- Relocation Assistance with buyout or acquisition activities;
- Down-payment Assistance with buyout or acquisition activities;
- Demolition;
- Activities designed to relocated families outside of floodplains;
- Public Service within a 15% cap (e.g. housing counseling, legal counseling, job training, mental health, and general health services);
- Match for FEMA Hazard Mitigation Grant Programs (HMGP).

Ineligible Activities:

- Incentive payments to households that move to disaster-impacted floodplains.

III. Local Infrastructure Program (LIP)

Funding Available:

\$36,044,589

Program Administration:

Local units of government (cities and counties) will administer this program. GCRPC will develop a method of distribution to allocate funds to all cities and counties per GLO and HUD requirements.

Eligible Activities:

Projects seeking to repair, enhance, and restore infrastructure for communities impacted by Hurricane Harvey as part of a comprehensive long-term recovery program. All activities allowed under CDBG-DR, including but not limited to:

- Flood control and drainage repair and improvements, including the construction or rehabilitation of storm water management systems;
- Restoration of infrastructure (such as water and sewer facilities, streets, provision of generators, removal of debris, bridges, etc.);
- Demolition, rehabilitation of publicly or privately-owned commercial or industrial buildings, and code enforcement;
- Economic development (such as microenterprise and small business assistance, commercial rehabilitation, and special economic development activities, including prioritizing assistance to businesses that meet the definition of a small business);
- Public service (such as job training and employment services, healthcare, child care, and crime prevention within the 15 percent cap).

Ineligible Activities:

- CDBG–DR funds may not be used to enlarge a dam or levee beyond the original footprint of the structure that existed prior to the disaster event. CDBG–DR funds for levees and dams are required to:
 - Register and maintain entries regarding such structures with the U.S. Army Corps of Engineers National Levee Database or National Inventory of Dams;
 - Ensure that the structure is admitted in the U.S. Army Corps of Engineers PL 84–99 Rehabilitation Program (Rehabilitation Assistance for Non- Federal Flood Control Projects);
 - Ensure the structure is accredited under the FEMA National Flood Insurance Program;
 - Maintain file documentation demonstrating a risk assessment prior to funding the flood control structure and documentation that the investment includes risk reduction measures.
- Funds may not be used to assist a privately-owned utility for any purpose;
- Buildings and facilities used for the general conduct of government (e.g., city halls, courthouses, and emergency operation centers);
- No disaster recovery assistance will be considered with respect to any part of a disaster loss that is reimbursable by the Federal Emergency Management Agency (FEMA), the Army Corps of Engineers (USACE), insurance, or another source due in part to the restrictions against duplication of benefits outlined in the Action Plan. An activity underway prior to the

Presidential Disaster Declaration will not qualify unless the disaster directly impacted said project.

- By law, (codified in the HUD Act as a note to 105(a)), the amount of CDBG–DR funds that may be contributed to a USACE project is \$250,000 or less.

Draft Method(s) of Distribution:

Draft Methods of Distribution and allocations to eligible entities have been developed by GCRPC for both the Local Buyout and Acquisition Program and the Local Infrastructure Program. The initial Draft Methods of Distribution were developed in adherence to requirements and guidelines set forth by HUD and the GLO. Allocations to eligible entities in the GCRPC region were made using the same formulas and factors utilized by the GLO to allocate funds to the nine regions affected by Hurricane Harvey. This ensures consistency and minimizes any increase in existing margins of error. The formulas utilize U.S. Census Bureau population data, unmet need calculations, FEMA Individual Assistance data, FEMA Public Assistance data, social vulnerability data, a resiliency factor, and impact calculations to distribute available funding to eligible entities.
